Clemson University

Graduate Degree | Architecture Planning
University of North Carolina at Charlotte

GET TO KNOW DAVID

- Has played tennis weekly with his father since age 5
- Designed his own house which he still loves
- Spends weekends at his place on Lake Hartwell
- Mistaken for a sumo wrestler when spectating tournament
- Attended same elementary school as his kids

David is a licensed architect with more than 30 years of experience across a variety of industries including manufacturing, distribution, and office projects. He is a LEED AP and holds licenses in multiple states. He has been a member of the Quest Site Solutions team since the company's inception.

PROFILE

David Hardy leads Site and Facility Services for Quest Site Solutions, providing design and estimating expertise. He assists clients in developing efficient site layouts and facility designs and engages with clients early in the site selection process to identify unique items that can affect project cost.

David brings the latest Building Information Modeling (BIM) tools, 3D models, and DProfiler software to Quest's clients. He utilizes SCOPE®, a proprietary site/project assessment software, to provide analysis and visualization of a project on the sites under consideration. With SCOPE®, David generates information regarding location, layout, cut and fill, and costs to help clients make informed decisions quickly.

David is a licensed architect with project experience throughout the United States. His expertise includes programming and master planning, site layouts, cost estimating, preliminary and final design, and project development. He has conducted design charrettes for a variety of projects, including new construction, renovations/upfits, and expansions.
